

IST GALILEO USER ASSEMBLY

28-29 NOVEMBER 2017 MADRID

1ST GALILEO USER ASSEMBLY

28-29 NOVEMBER 2017 MADRID

One year after the launch of Galileo Initial Services by the European Commission, in December 2016, we are pleased to welcome you to Madrid, at the European GNSS Service Centre (GSC). The very first GALILEO USER ASSEMBLY is organised by the European Commission and the European GNSS Agency (GSA). During the 1st GALILEO USER ASSEMBLY, the European GNSS User Consultation Platform (UCP) is officially being kicked-off to provide an open forum for users to discuss needs, share experiences and provide feedback on European GNSS performance. Also, the first Galileo Service Provision Workshop is being held to present the observed performance of the system over the past year and plans for evolution of the services over the following years.

DAY I Tuesday, 28 November

8:30 Welcome coffee / EGNSS User Consultation Platform (UCP) Registration

- 9:00 – 9:50**
- Welcome and opening: **Carlo des Dorides**, Executive Director, European GNSS Agency (GSA)
 - Introduction to the 1st EGNSS User Consultation Platform (UCP): **Gian Gherardo Calini**, Head of Market Development (GSA) and **Fiammetta Diani**, Deputy Head of Market Development (GSA)

9:55  Shuttle bus transfer to parallel session locations

- 10:15 – 13:00** 4 thematic UCP working sessions:
- **Transport**, moderated by **Fiammetta Diani**
 - **Mass Market**, moderated by **Justyna Redelkiewicz Musial**, Market Development, European GNSS Agency (GSA)
 - **Professional**, moderated by **Reinhard Blasi**, Market Development, European GNSS Agency (GSA)
 - **R&D**, moderated by **Marta Kywanis Brzostowska**, Market Development, European GNSS Agency (GSA)

13:00 – 13:55 Buffet Lunch

14:00 – 16:30 Thematic UCP working sessions continue

16:45  Shuttle bus transfer of all participants to GSC

- 17:00 – 20:00** 1st Galileo User Assembly Networking Reception and Tour of the European GNSS Service Centre (GSC)
- Opening Remarks by:
- **Matthias Petschke**, Director of the EU Satellite Navigation Programmes, European Commission

The **1ST GALILEO USER ASSEMBLY** will be held at INTA (Instituto Nacional de Técnica Aeroespacial)
Carretera de Ajalvir, km 4. 28850 Torrejón de Ardoz, Madrid – Spain

The Galileo programme is funded and owned by the European Union.

The **European Commission** has overall responsibility for Galileo, managing and overseeing its implementation on behalf of the EU. **The European GNSS Agency (GSA)** oversees how the Galileo infrastructure is used and ensures that Galileo services are delivered as planned and without interruptions. European Space Agency (ESA) is in charge of the deployment of the Galileo system and the technical operations.

The **European GNSS Service Centre (GSC)**, under the responsibility of the GSA, offers users a one-stop-shop web portal that provides Galileo users with relevant information on the system's status and easy access to a dedicated Helpdesk. Today it provides a single interface for the Galileo Open Service(OS) and Commercial Service (CS) user communities.
